

There are few Christian broadcasting stations in this area. K-LOVE is the only station that regularly comes in and is the best, as far as professionalism and content are concerned.

The programming K-LOVE provides is great for the whole family. It is positive, no need to fear children hearing it, and it has a truly rewarding and uplifting effect on all of its listeners.

The community here as a whole needs this station and more like it. The listening audience is most likely quite broad, and the positive message and great music provided by K=LOVE to the community is a great public service.

I don't really know what else to say, having never filled out a form such as this before, but I felt it very important to let you know that this station has greatly and positively impacted my life, and, I know, the lives of countless others. There truly is great value in this regional service. Please don't expand LPFM and create the possibility that we cannot hear K-LOVE anymore.

Thank you for taking this into consideration,
